

So deep the sea of love

In times of pain we reach to you

We ask that you may see

That love abounds in me

No giving up to go right through

And be a person you can see

Seeing you, the suffering you had

The life cut short just left

I love you so, I truly do

I love you all my life

I saw a chance to be with you

You cared for me that's true

I never knew a good good love

Until I met with you

My life goes on and days go by

Without you by my side

I cry big tears of sorrow now

But happiness again I will find
